medicine and psychiatry both based on science require the art of caring using the principles of art in learning and teaching sitting with a patient making sense of their distress being empathetic in understanding both the symptoms and the person and alleviating suffering needs a human touch for that doctors need the soul of an artist and must be aware of the value that arts have for society and the individual from the foreword by dinesh bhugra this comprehensive book explores how visual art cinema music poetry literature and drama can inform the teaching and practice of psychiatrists and mental health professionals edited and written by a team of expert practitioners teachers and researchers including both clinicians and users of mental health services this comprehensive book will provide valuable insights for undergraduate and postgraduate educators with teaching responsibilities in psychiatry and mental health students of the medical humanities art music and drama therapists and educators in occupational therapy and psychology will also find this a valuable and insightful handbook the authors of this wonderful handbook provide a convincing argument that the arts are good for what ails us they have each used a preferred artistic medium to deepen personal reflection and to enhance their own creativity as physicians teachers and therapists their models are clear their suggestions practical but none of the

approaches you ll find here is reductive or simplistic try some of the reflective exercises and teaching strategies you will be sure to rediscover something you have always cherished about the art of healing from the foreword by allan d peterkin

this collection of ralph smith s writings provides a comprehensive overview of his extraordinary contributions to understanding the importance of aesthetics in education these essays record his lifelong efforts to construct a defensible rationale for the arts in general education and a workable curriculum for art education in our public schools k 16 the topics covered range from liberal education to arts education the relationship of art aesthetics and aesthetic education to teaching and curriculum the arts and the humanities and cultural diversity

arnstine shows how schools have been distracted from education by reformers urging higher standards the code word for higher test scores but education is revealed in the dispositions a person has sensitivity and resourcefulness amiability and responsibility taste wit and a disciplined intelligence this book examines the conditions needed to foster dispositions like these for they are not acquired by having the young spend more time studying standard academic subjects in preparation for competitive tests without recourse to esoteric jargon democracy and the arts of schooling shows why test scores are less significant than the quality of the experiences students have in school when that quality is high when it has the richness and the absorbing character we associate with the aesthetic then learning takes place

the aesthetics of imperfection emphasises spontaneity disruption process and energy over formal perfection and is often ignored by many commentators or seen only in improvisation this comprehensive collection is the first time imperfection has been explored across all kinds of musical performance whether improvisation or interpretation of compositions covering music visual art dance comedy architecture and design it addresses the meaning experience and value of improvisation and spontaneous creation across different artistic media a distinctive feature of the volume is that it brings together contributions from theoreticians and practitioners presenting a wider range of perspectives on the issues involved contributors look at performance and practice across western and non western musical artistic and craft forms composers and non performing artists offer a perspective on what is imperfect or improvisatory within their work contributing further dimensions to the discourse the aesthetics of imperfection in music and the arts features 39 chapters organised into eight sections and written by a diverse group of scholars and performers they consider divergent definitions of aesthetics employing both 18th century philosophy and more recent socially and historically situated conceptions making this an essential up to date resource for anyone working on either side of the perfection imperfection debate

the book reveals how the social value of art may have one meaning for a policy maker another for a museum and still yet another for an artist and it is therefore in the interaction between these agents that we learn the most about the importance of rhetoric and interpretation as a trajectory in art history socially engaged art has a long and established history however in recent years or since the social turn that occurred in the 1990s the rhetoric surrounding the social value of art has been assimilated by cultural policy makers and museums interdisciplinary in its approach and bringing together contributions from artists curators and academics the volume explores rhetoric social value and the arts

within different social political and cultural contexts

continuing his exploration of the substance of a basic education mortimer j adler examines the inherent values of various art forms and considers their significance within a well rounded curriculum he maintains that imaginative literature and works of science philosophy theology and history act upon our intellects and stimulate the discussion of ideas the non verbal arts which act directly and powerfully on our emotions and sentiments without the intermediation of thought are to be valued for their beauty their workmanship and the pleasure they give rather than their contributions to a body of ideas elucidating his ideas through the discussion of specific works adler concludes that an appreciation of all the human arts is essential to the development of a fully cultivated and well educated person

first published in 1998 this volume considers the subject of arts policy as a subject of public policy making proper in uk and ireland with a particular focus on theatre as a profession rather than a mere hobby previous studies have placed the burden of policy improvements on the arts themselves looking at what the arts can do to be worthy of government funding and favourable policy and have seen government actions as if they have a uniform effect this study takes the arts out of the abstract and discusses specific ways that diverse activities with even more diverse needs can be best approached with government policy assessing the strengths and weaknesses of government initiatives it is aimed at both political scientists and anyone with an interest in arts and cultural policy

at a time when a pile of bricks is displayed in a museum when music is composed for performance underwater and the boundaries between popular and fine art are fluid conventional understandings of art are strained in describing what art is what it includes or excludes whether and how it should be evaluated and what importance should be assigned the arts in society in this book vera zolberg examines diverse theoretical approaches to the study of the arts ranging over humanistic and social scientific views representing a variety of scholarly traditions american and european she then develops a sociological approach that evaluates the institutional economic and political influences on the creation of art while also affirming the importance of the question of artistic quality the author examines the arts in the social contexts in which they are created and appreciated focusing on the ways in which people become artists the institutions in which their careers develop the supports and pressures they face the publics they need to please and the political forces with which they must contend particular subjects covered include the process by which works are created and re created at different times with changed meanings and for new social uses the role of the audience in the realization of artistic experiences the social consequences of taste preferences the reasons for change in artistic styles and for the coexistence of many art forms and styles

this book teaches the basic principles and practices of the arts drawing painting printmaking photography sculpture architecture music theatre cinema dance and literature both in western culture and cultures outside the western tradition designed for those who have limited experience in the arts the text is divided into two parts part one examines the media of the arts by defining and explaining important terminology discussing how works are composed and suggesting ways in which art affects responses in viewers and listeners arranged chronologically part 2 samples art from a variety of cultures focusing on style as a reflection of expression and meaning page 4 of cover

larry shiner challenges our conventional understandings of art and asks us to reconsider its history entirely arguing that the category of the art is a modern invention and that the lines drawn between art and craft emerged only as the result of key european social transformations during the long eighteenth century publisher's description

bogue provides a systematic overview and introduction to deleuze's writings on music and painting and an assessment of their position within his aesthetics as a whole deleuze on music painting and the arts breaks new ground in the scholarship on deleuze's aesthetics while providing a clear and accessible guide to his often overlooked writings in the fields of music and painting

in the late 1990s rosalind krauss one of the principal theorists of post modernism in the arts began using the term post medium in her work it was a nod to the american ordinary language philosopher stanley cavell who had been thinking through a concept of medium in art for 30 years today with the decline of post modernism stanley cavell has emerged as one of the most important figures for thinking again about the visual arts film and theatre stanley cavell and the arts looks at cavell's extensive writings on a wide variety of artforms and at a number of writers michael fried william rothman influenced by his work over a 50 year career cavell wrote about visual art photography classical music shakespeare the plays of samuel beckett and perhaps most notably hollywood cinema stanley cavell and the arts offers an overview of cavell's writings on the arts situating them within his wider philosophical practice analysing in detail his treatment of particular art forms and looking at the work of those he has deeply shaped

there is a gap in knowledge about artistic careers few people fully understand the economics and sociology of the visual and performing arts the public impression of the lives of artists are distorted because typically only the very successful get attention society generalizes based on those people who are statistical exceptions not by looking at average careers let alone those who discontinue their pursuit of arts professions for emerging young artists it is essential to know the histories of the different performing and visual arts and their training and craft traditions additionally understanding the role of informal learning differences in types of institutions approaches to teaching learning and the subsequent likely career impact is important while some have hailed the advances in the arts as a result of new technology changes in the finances of performers are greatly impacted by the digital world many have commented on the greying audiences for classical music and opera but the characteristics of the younger generations who appear to want to view listen and interact with visual and performance art differently may be even more impactful
